- » Прямые контакты с правительственными структурами федерального и регионального уровня, с руководителями крупнейших электроэнергетических компаний
- » Синергетический эффект для бизнес-аудитории - проведение на одной площадке форума и выставки

EXHIBITION SECTIONS

Electrical engineering

Lighting equipment

Heat supply

Automatisation

Digital energy

Cable. Wires. Armature

Alternative energy

Energy-efficient technologies

RESULTS OF 2019:

5000 sq.m. exposition

130 exponents

25 region of Russia

7 international countries

National stand of Germany, Switzerland and France

National stand of Czech Republic

8 197 visitors

RUSSIAN ENERGY FORUM 2020:

PLENARY SESSION

**SPEAKERS - AUTHORITATIVE
INDUSTRY EXPERTS**

**FEDERAL LEVEL SITE FOR
DECISION MAKING**

NETWORKING

RESULTS OF 2019:

Plenary session «Energy efficiency.
Results and perspectives»

2 Technological tours:
- Zatonkaya CHP
- Smart Grid Center

22 business sections

Presentation of the national award
“Golden support 2019”

205 speakers and moderators

2 698 delegates

Competition “For the best technology, equipment,
products and scientific developments”
among exhibiting companies
83 applications, 47 winners

Youth day

REPUBLIC OF BASHKORTOSTAN

- ◆ Area: 143 000 km²
- ◆ Population: 4 mil. people
- ◆ Capital – Ufa, with a population of 1.1 mil. people
- ◆ Largest cities: Ufa, Sterlitamak, Salavat, Neftekamsk, Oktyabrskiy, Kumertau
- ◆ Borders with 6 subjects of the Russian Federation: Perm Krai; Sverdlovsk, Chelyabinsk, Orenburg region; Republic of Tatarstan and Udmurt Republic.

POWER INDUSTRY IN THE REPUBLIC OF BASHKORTOSTAN

- ◆ The Republic occupies leading position in the National rating of investment attractiveness in terms of availability of energy infrastructures.
- ◆ 8 259 enterprises, including 364 large and medium-sized, of which more than 100 enterprises related to the energy industry.
- ◆ The Ministry of industry and innovation policy of the Republic of Bashkortostan reviewed 50 investment programs of energy subjects, 43 of them were approved.
- ◆ The Republic has implemented the largest scale Smart Grid system.
- ◆ The Republic has all types of alternative energy sources: wind farm with a capacity of 1.65 MW, 9 small and micro hydro power plants with a total capacity of more than 700 KW, and 3 solar power plants - Buribaevsky (Haybullinsky district) with a capacity of 20 MW, Bogushchanskaya (Kuyurgazinskogo district) with a capacity of 15 MW, Isyangulovskiy (Zianchurinsky district) with a capacity of 9 MW. In 2020, it is planned to create a solar power plant in the Burzyan district with a capacity of up to 10 MW. For the first time in Russia, a solar power plant will be able to work in parallel with the network, which will increase its reliability. The planned volume of investments is 800 million rubles.
- ◆ Current programs for the development of power industry in the Republic of Bashkortostan:
 1. Program of perspective development of power industry of the Republic of Bashkortostan for 2018-2022
 2. Power industry development program of the Republic of Bashkortostan for 2017-2021
 3. City program "Energy Saving in Ufa for 2009-2013 and for the future until 2020" – the basis of the energy strategy of Ufa

Exhibition complex "VDNH EXPO-Ufa"

Multifunctional exhibition complex, on the territory of which the most prestigious industrial and technological exhibitions, public forums and congress events of various scale and format traditionally take place.

10 048 sq. m
Total area

7 140 sq. m
Exhibition space

800 kW
Total maximum power supply

8 000 sq. m
Outdoor area

1 750 kg/sq. m
Maximum floor load

Expositions are built by OCTANORM's own exhibition equipment.

To participate in the exhibition:
+7 (347) 246-41-93, 246-41-77, 8-917-419-17-78
Exhibition Manager Kudasheva Albina
